EDUCATION

Master of Public Policy & Quantitative Methods (Candidate)
School of Public Affairs | American University. Washington, D.C.

Aug. 2025 – May 2027

- Relevant Courses: Policy Analysis & Implementation, Data Analytics, Cost–Benefit Analysis, Economics of International Development, Statistics & Quantitative Methods, Project Management.

Bachelor of Arts | Double Major in Economics and International Relations
University of British Columbia. Vancouver, Canada.

Sep. 2021 – June 2025

- Relevant Courses: Econometrics, Statistics, International Trade, Development Economics, Environmental Economics, Economics of Poverty and Inequality, Microeconomics, Macroeconomics, Asian International Relations, EU Politics, and International Security.

TECHNICAL & DATA ANALYTICS SKILLS

- **R / RStudio / Quarto:** Data import, cleaning, wrangling, reshaping, joining, visualization, web scraping, custom functions, reproducible reports, and slide decks using tidyverse, ggplot2, dplyr, tidyr, readr, readxl, haven, rvest, stringr, knitr, patchwork, ggtext, and Quarto/QMD.
- **Stata:** Data cleaning, variable construction, summary statistics, OLS regression, multiple regression, robust standard errors, interaction terms, nonlinear specifications, fixed effects, panel data analysis, difference-in-differences, and regression discontinuity concepts.
- **Excel:** Data organization, budget tracking, PivotTables, charting, comparative tables, cost-benefit analysis spreadsheets, discounting, net present value, benefit-cost ratios, sensitivity analysis, and macroeconomic data comparison.
- **Quantitative Methods:** Regression analysis, descriptive statistics, econometrics, and cost-benefit analysis.
- **Data Communication:** Presentation-ready visualizations, analytical slide decks, research memos, policy briefs.
- **Tools:** Teams, Outlook, PowerPoint, Word, Adobe, Canva, Asana.
- **Languages:** Spanish native, English full professional proficiency, French professional working proficiency.

SELECTED DATA ANALYTICS PROJECTS

China–U.S.–Latin America Trade Analysis | R, Quarto/QMD, ggplot2

- Built a reproducible Quarto presentation on LAC export shifts from the United States toward China.
- Cleaned, reshaped, and visualized country-level trade data in R using data transformation, grouping, labeling, and presentation-ready graphics.
- Produced both an analytical slide deck and QMD code document to communicate findings clearly and reproducibly.

U.S. Senator Profile Web Scraping Project | R, rvest, tidyverse

- Scraped C-SPAN Senator profiles to collect data on party, state, sponsored bills, and legislative topics.
- Used HTML element selection, string parsing, data cleaning, and table construction in R to build a structured dataset for analysis.
- Analyzed bill sponsorship patterns and created a graph summarizing differences in legislative activity across Senators and party groups.

RISE 2016 Energy Policy Scores by Region | R, data visualization

- Analyzed World Bank RISE data by calculating regional average scores for Energy Access, Energy Efficiency, and Renewable Energy.
- Created a comparative bar chart showing stronger policy scores in OECD high-income countries and weaker scores in Sub-Saharan Africa.
- Interpreted regional gaps in energy access, efficiency, and renewable policy as indicators of infrastructure and regulatory capacity.

Undergraduate Economics Thesis | Stata, Panel Data, Econometrics

- Analyzed the relationship between trade agreements, tariff reductions, and economic growth using Penn World Table and World Bank data for 183 countries, 1988–2019.
- Used Stata to clean and merge macroeconomic data, construct key variables, and estimate fixed-effects panel regression models.
- Interpreted findings to demonstrate that tariff reductions alone may not drive growth without stronger institutional and firm-level conditions.

PROFESSIONAL EXPERIENCE

Graduate Assistant for Leadership & Global Engagement
American University. Washington, D.C.

Jan. 2026 – Present

- Plan and coordinate leadership programs and international service trips, serve as liaison with partners, and manage budgets and payments in Excel.
- Develop inclusive curricula and program materials, integrating best practices and digital tools to enhance learning outcomes and student engagement.
- Facilitate program assessment by designing evaluation tools, tracking participation and engagement data, and contributing to qualitative impact reporting.

Graduate Research Assistant
School of Public Affairs | American University. Washington, D.C.

Aug. 2025 – Dec. 2025

- Collected, cleaned, and organized Excel data on public administration and nonprofit management programs in Africa and the Middle East, creating a comparative framework to identify patterns in governance, institutional capacity, and human capital development.
- Supported research deliverables and conference materials on state-building, global governance, and organizational capacity.
- Synthesized literature on information technology, AI, big data, equity, and data-driven governance to support research on public administration and nonprofit management.

Research Assistant School of Public Policy and Global Affairs University of British Columbia. Vancouver, Canada. - Conducted research on trade agreements and regional cooperation, assessing their impact on economic development, governance, and trade liberalization. - Cleaned, organized, and analyzed GDP, PPP, and macroeconomic indicators in Excel to compare G20, BRICS, and developing economies, supporting research on trade, development, and geopolitical alignment for <i>The Hedgers</i> (Cambridge University Press, 2026) (see Publications). - Prepared research briefs on EU responses to U.S.-China trade tensions, synthesizing official reporting and trade data to identify implications for multilateral governance and institutional reform.	May 2025 – Aug. 2025
Political-Economic Affairs Intern U.S. Department of State. Vancouver, Canada. - Drafted diplomatic cables on energy policy, trade agreements, and infrastructure projects for circulation across the State Department and federal agencies. - Prepared briefing memos for the Consul General on developments in green technology infrastructure, bilateral trade, provincial elections, and environmental policy. - Developed a research report on clean energy and LNG infrastructure in British Columbia and Yukon, using regression-based analysis to assess energy demand, grid stability, and trade-offs between energy trade and infrastructure expansion.	Sep. 2024 – Dec. 2024
Energy Policy Trainee European Commission (DG ENERGY). Brussels, Belgium. - Used Excel to compare allocated and actual clean energy project costs, calculating budget variances and implementation rates across EU Member States. - Created stakeholder presentations on clean energy, energy efficiency, and infrastructure projects, translating technical findings into clear policy-relevant materials. - Authored a research report on hydrogen trade across Europe and EU cooperation in sustainable marine and port activities, informing policy recommendations on sustainable infrastructure.	June 2024 – Aug. 2024
Junior Investment Analyst M.Y. Capital Management Corporation. Vancouver, Canada. - Used Excel to calculate cash balances, supporting fund performance monitoring and identifying investment opportunity screening. - Supported the structuring of private investment agreements through legal due diligence processes and compliance verifications. - Produced fund descriptions detailing objectives, risks, and performance to ensure accurate disclosure and update documentation for investor onboarding.	Feb. 2023 – Aug. 2023

LEADERSHIP EXPERIENCE

Student Associate Sine Institute of Policy & Politics American University. Washington, D.C. - Co-lead the design, promotion, and execution of events and discussions on leadership, policy, and public affairs. - Manage outreach and logistics, ensuring high-impact, well-attended events for the “History, Voice, and the Future of Latino Democracy” seminar series.	Sep. 2025 – Present
Vice President UBC Foreign Policy Association. Vancouver, Canada. - Managed outreach to partners and prospective speakers and organized panels with foreign policy professionals to expand the association’s visibility. - Coordinated logistics and communication to ensure smooth execution of events and initiatives.	Mar. 2024 – Apr. 2025
